## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors. For example claims 1, 4-6, 8 and 12 recite incomplete sentence fragments. Claim 11 recites a registered trademark that should be appropriately identified or eliminated from the claim. Claim 14 inappropriately has two complete sentences. Other claims, for example, 11-13 have quotation marks.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Billard et al is cited to show a spectacle lens cut asymmetrically.
